“The harvest is thoroughly great”

Driving going to san Roque

Special points of interest:

- Please pray for our plan to live in Samal Island Next year
- Please pray for our ministries. More souls to be save
- My family's health
- Please pray for our weekly financial transportation blessing.
- Pray for our Baptism candidates.

Adrienne is teaching children a song.

The Bible declares “The harvest is thoroughly great but the laborer is few”. Throughout this month Our Lord reveals again His power and grace in making His work effective. I am very thankful for the vehicle you give and it is really a big factor in making our work be done easily. Because of that means of transportation I am able to bring the children, pick up visitors and some of the members that are far from the church every Sunday. I am very blessed also for the student workers who work with me every week. Every

week our work become greater as we continue to move forward into other places that we know the word of God be preach, teach and encouraging the people to come in the church. For the this month we conducted five bible studies in five different places both children, adult and children or even the

gamblers, Fear is gone because God is on our side. The praise is for God, he gave us fruits of salvation, this month,

base on the

record, our Profession of faith is 3 for the adult, 13 for the children and 2 young people and with the 7 visitors recorded for our Sunday worship. And every Sunday the vehicle is always overflowing with passengers going to church both children and adult.

Brethren these ministry achievements will not work without The Lord's help and your help. Your financial help and prayer is blessed by God that enable us to move forward in the work each week. Also your prayers that constantly empowered us to become more effective in the mission. Thank you so much!

By any means

Our student workers from the seminary are using their ability as a ministry. The

male lunch their basketball ministry just to bring the young ones to the church. They will have bible study first then play basketball. In the other hand also our female workers are using their knowledge to teach secular subject so they offer a free tutorial in all grade level.

For them to reach out the hearts of the parents and their children. As Apostle Paul says, "By any means save some".

The collegiate ministry

Going to youth meeting

Seeing the situation of today's college students and young people brought my knees down. I talk to some college students and I found out what is lacking in them, "Truth". For more than a month now since I been conducting bible studies for college students a ministry come to my heart, Campus Ministry. For now I been doing a campus ministry outside school premises and without the knowledge of the school. I been using the boarding house as a place for Bible

study and meeting place. So for now I want to ask you to help me pray for me as I prepare the documents ap-

"Everything will be possible when we keep on praying"

plication needed for us to have a permission from the school so that many college student can attend.

"Everything will be possible when we keep on praying". I believe when this ministry be granted then I'm sure many things will be done for God.
