THE CHALLENGE OF FAITH

It is a privilege for me to share with you today on what I've experienced this month. However, God indeed is so gracious and so great that He is able to care for and surround the people and a brother like you with prayers constantly answered by God. In behalf of my family and the mission here thank you so much. Brethren you are always in our hearts and mind praying always for you all.

I called it this month the challenge of faith because of so many things that have happened this month with a relation of trust and confident in

God's power. For almost a year we stop our Jeepney ministry for the reason that I can't afford to pay for the rentals. Since then I always pray that God will have mercy and grace to have our jeepney ministry be back again and for almost a year God answered my prayer using His people at Promise Land Missionary Baptist Church. I was so moved and emotional when my wife told me about bro. Bobby email inform-

ing me about the decision of the church. Brethren, you don't know how much joy I'd feel, Hallelujah for that.

For now I'm praying for a long term means of transportation to save much amount of money for the jeepney rental in the long term. And again this prayer is a challenge of my faith for me to wait in God's time.

Special points of interest:

- Please Continue pray and give for our Jeepney funds. A project to buy a FB multi cab
- Please include in your prayer list our children's church every Saturday.
- Please pray for my health and more souls to be saved and be baptized.

A GROWING CHILDREN'S CHURCH

Praise God because He answers our Prayer. I was praying that the local official will allow us to use their multi-purpose hall for the children's church and for almost a month now the local officials made a decision not just to allow us to use their building but also encourage the parents or residents of Caliclic village to send their children and be part of the children's church every week. They even allow us to use their chairs. And for 3 Saturdays our attendance is growing so fast. From 18 children

now its 68 including the parents a tally just last Saturday. And for the last 2 Saturday there were already 17 children age 10- 14

accepted the Lord with another 3 mothers also accepted the Lord Jesus.

In this past month our attendance in the church is growing into 93 total including the children age 7 and above.

With 10 new visitors and 21 usual visitors. For now please join me in prayer for those souls be able to make a decision to follow the Lord in the water baptism.

THE PAIN IN PHYSICAL CHALLENGE

Another good thing that happened last week is that we feel the joy to help other church though it was tiring and painful throughout my body but still I love it. Praise God the conference ended victoriously with a good attendance ever recorded. Because the whole seminary was filled by people even to the point that some of our delegates were contented just to lay down their head and body in the floor covered by cartoons and some on the tables just to take a nap during the night because was not enough bed available. It was a joyful week full of challenges from the word of God through His speakers so great.

I was in the literature with these young people in the pictures taking care for the or-

ders so that those delegates will not be disturb for the lectures. It was so nice to be part of God's churches grow. Thank you so much for the literatures that the churches there who are sending for us to have a free literatures for VBS and Sunday school.

Starting this week we will start distributing some flyers for our VBS in the church this coming April 13-19 and I am so excited looking forward in that day.

Please pray for more souls to be save and parents to be change by God's word.. To God be the glory forever AMEN.
