

# Samal Island Mission

Missionary: Ptr. Ruvel Albino

Sponsored by: Promise Land Missionary Baptist church & Young Married couple Sunday school class

## RIM on Mission

May 28, 2009

Its always a joy and a pleasure for me to share to you the things God has done each month, and I know everyone of you were so excited to hear news from the mission field because mission is your heart.

Thank you so much for praying for me and to my family and not just for your prayer but it also your financial help monthly , thank you so much.

There are a lot of things I want to share. First going with Remote Island Ministry (RIM). It was a remarkable story on how we experience our mission to the Island. It was our purpose to conduct a Vacation Bible school, to Ordain bro. Randy Emban and to evangelized the people. Furthermore, God answers our prayer, we all did our purpose of going but in the back of those victories there were also pain and dif-

ficulties that we encounter. Some of my companion experience shipwreck when they tried going to Bethany using the small boat from Nativa in the second day of our Vacation bible school. And because of that, those people who were on board got wounded but still they continued teaching. And my guitar was filled with sea water because of that incident, but God is good my guitar is still good.

## The Growth of the Church

For the last observation in our attendance the church attendance decreases for two Sundays now. It was for reason that most of the member

and young people went to other place to find a job so they can support their family and their children for this coming school opening. After the Vbs our at-

tendance grow up into 30 and above but right now it was 21 with only 1 visitor and 3 waiting for baptism series to be understand and be baptize.

## A Multi-cab project

I know everyone are praying and contributing for this project. For that reason I was and is diligently seeking for good deal of price but as the month passed by, prices go up. From 180,000.00 pesos for the common type just like in the picture and for now the price became 220k to 230k because of the demand. I would like to ask to pray for me as I continue looking for

the good deal of prices and to pray that God will provide enough amount of funds for this

project. So I would encourage everyone to help this project possible. This Multi-cab project will be a great means of help for the people to come to church on Sunday.

For more information for this project please ask Ptr. Michael Reese and Bro. Bobby Shockley.

## Grace for my student workers

I want to ask your prayers for our student workers from the seminary. This June there are 5 new student from the seminary who wants to work in Samal Island with me. And I want to ask your prayer for their tuition fee in the seminary. The tuition is 2000.00 each semester each stu-

dent. These student workers is of great help for me in some areas of ministry specially in teaching children so I can focus on the adults. So please help these students for their tuition fees.

## RIM & PMBS-AIT short news

This month, RIM team including me went to Bethany café san Agustine to ordain Bro Randy Emban. I was one of the ordaining council for this service and in front of the 87 witnesses the service successfully done. Though I am not a part of their Team, and from my heart I

would encourage everyone to support RIM and the Philippine Missionary Baptist Seminary Asia Institute of theology. This June 9 the seminary will start enrolling new student so please pray for more student. God Bless you for reading this report.
