The Relocation

I would like to thank Ptr. Michael Reese and the whole congregation of Promise land Missionary Baptist Church for helping us for the moving expenses. Indeed we are successfully able to bring all our things to our new home in Babak Island garden city of Samal. We are now living in the center of the community and our home will be use also for our Prayer Meeting so we can easily invite our neighbor. Our house is look a like our church building but its small with two bed rooms, one comfort room, no parking space I just park my vehicle beside our house. The people here are very friendly and kind.

last Saturday we have a good visitation and children ministry. A man standing beside me named Franklen Akanid a father to one of the children whom the student workers are ministering, and I was able to share with him God's word and he is very willing to visit our church this Sunday.

The children really love the song "making Melody" and the parents are very happy watching their children do the action song. Leofe will do the children bible story this coming Saturday to replace the student workers who will be leaving this Saturday morning to their churches.
