So much prayer Needed

Thank you for having you today and for giving your precious time to read and to praise the Lord for his amazing love.

The month of December has open me so much opportunities in the field of Mission outreaches. Recently, two new places was opened for ministry outreaches these are the ba-Nauswagon and San agustin. The barang-gay captain himself asked me if our church is willing to

do VBS in his village. He also promise to assist me in inform-ing and inviting the people to attend.

Just last week I went to Baranggay San Agustín to visit the Bucad family, our prospect family in the area.

The picture in the corner side is taken during our cottage worship service in Caliclic even if we encounter so much rain still we were able to do the Lords work with 11 in our atten-

dance. Our student

worker is also work-ing not just in bible study also in fixing our church's fences. Just recently I fin-ished repainting our church stage back-ground and windows as part of our projects to improve and to keep our church building beautiful.

Campus ministry Update

Our campus ministry remained growing slowly. Just recently there were 15 students attended our Bible study. Since bro. Benjamin is not here anymore so my wife and I together with our two young

People we work together to be sure that all our minis-try continues.

Thank you so much for the Christmas presents you give and because of that my family was able to distribute gifts to the children in our church. We also went to the beach last December 27 with our church's members and prospects. My daughter bought a new pair of sandals and a new clothing for my wife. My wife also bought me a new shoe. Many things were done through the gift you send to us.

We pray that God will pour out more of his blessings to all of you this year and to the years to come.
