Blessies' school presentation for Nutrition Month

CAMPUS MINISTRY & other mission

A new chapter is being folded for our very active and progressive work in the campuses. Just recently the school administrator has recommending our organization to the new students to be part and be part in our campus bible studies. Right now the campus ministry has become our way and place for bringing the youth to our church. Starting on the month of October the campus ministry fellowship will be held in our church once a month. As of now there were 36 students con-

stantly attending our school worship and fellowships. My wife leofe was appointed as executive assistant of school student council for the whole university. Our bridging (GFD) the students will help us locate their home and eventually invite us for bible study. Last July 20, we gather 36 students for bible study and 1 accepted the offer of Salvation. Concerning our Mission in San Jose Village, the work is progressing. The last time I was there we were 15 in attendance for our small group bible study and prayer meeting and we are using the "Purok" (Nipa Hut) small house as our place of bible study and 2 adult accepted the Lord.

Church's Thanksgiving

Inspite of the trials that we face in our church the celebration remains for God. My wife and I got measles and suffers for fever a week but

praise the Lord we survived and recovered.

Our thanksgiving was blessed by God with 4 visitors and 1 for baptism. Our attendance was 36. thank you so much for praying for us
