ON THE HELM

Greetings to all our beloved brethren in the house of the Lord at Promise Land MBC who never ceases to pray and support our work in Samal Island. Words are not enough to pronounced our thanksgiving for all you've done for my ministry and for my family.

It was a very achieving experience we had for this month. First our ministry and bible studies that we suspend for the previous months due to financial shortage has resumed since we transferred to the church's parsonage. Sec-

ondly, Our two projects; electricity and water connections is both done by the grace of God and by your help. Now our electrical connection is already connected since the second week of september,. However, our water connection is not yet done. We already installed the pipes and process the documents but the local government informed us that our water connection will be delayed due to replacement of the main pipes and for installing their new water pump. Thirdly, almost of the fences in the

church and windows are fixed. All the members helped for us in fixing all the things that needs fixing in the church. I was in Kaputian district for bible study and prayer meeting when the members build a small house for parking place of our vehicle. Brethren thank you very much for your help I can say that our life and ministry starts to be in focus to the reason why God put us in this island to work for His glory and honor.

Special points of interest:

- To God be the Glory for Promise Land MBC for the special funds for the water and electricity project.
- Please continue to pray and donate any thing for the our mission.

A place we called "home"

In behalf of my family, thank you very much Promise Land MBC for helping my family live a better place and to have a greater focus in our ministry. My family was excited to experience living in the church in spite of all the danger of possibilities but those dangers are

now gone. Thanks to you for the our electricity and water connections funds. Almost every day we keep on fixing and fixing some little things that needs fixing. Now that we are in a place we called "home" we are very sure that we can save some of our funds to pay

for our daughters education, our Health insurance, 5\$ for vehicle repairs and fuel for our ministries and bible study.
