## The unspeakable gift

Thank you so much brethren for your love, prayers and support for my family and church for making our Christmas and new year wonderful. Your presence, prayers, and trust helps us to serve God more and more everyday and to stand strong even from some heartbreaking moments in 2013.

For us we Called that "the unspeakable gift" because of the fact that we cannot describe how the Lord works and moves. Last December 25 our church congregation celebrated our Thanksgiving Day , everyone brought food and gifts and during that day, one family dedicated their child

to the Lord.

For 2013 the Lord blesses us with 4 additional new members.

Brethren, Thank you so much for the Christmas presents you give for my family. However, instead of using that money for ourselves, my wife and I both decided to keep that money for us to be able to **Build a small boat** for my brother Harold in Samar so that He will have a means of livelihood income for his family. Right now we need at least **300 dollars for the engine of**

**that Small Boat.** So that my brother can use the boat for fishing. Personally I would like to pray for someone to sponsor for the cost of the engine. Your love and generosity is of great help. Thank you so much in Advance.

December 20, 2013 our collegiate ministry was able to gather some cash and in-kind donations from students and all professors of the University of Mindanao the fundraising drive was created to give a relief goods to the Typhoon Sur-

vivor who are now in Samar for a temporary shelter. My family provided some food for the feeding during that Day of distribution and our collegiate ministry was able to distribute 61 food packs and 3 sacks of rice.

## "Instruments of joy"
