

JULY-AUGUST REPORT

SAMAL ISLAND MISSIONARY REPORT

AUGUST 21, 2013

Volume 1, Issue 1

Preaching and teaching is free

Leadership training

My wife and other students listening the lecture

I am so thankful to God once again for having you brethren through your prayers and consistent support in all the work of ministry God entrusted in your humble missionary. The month of July and August was the busiest months ever I encounter my whole life. I went to Samar for two weeks, then I got 2 leadership seminars, then preaching to our Campus ministry, then, twice a week college bible study, outreach visitation, 1 hour Greek, and 1 hour Hebrew class to all 30 Baptist pastors in Samal

island. In all of these list of ministries and very hectic schedules your missionary never lose a time for his family every week. As our ministry went growing our church also is starting to grow. Just recently August 1, 2013 your missionary was appointed as the city director for Values Formation

program of the government. My job is to preach the word of God during family development seminar for all the beneficiaries of 4Ps (financial program to the poor) of the government. As appointed chaplain I am free to do visitation, and even encourage the beneficiaries to come to my church. Just last Sunday 20 beneficiaries came to visit our church even though I did not yet invite them. They said its their choice to come. I accepted the job because it helps more for my work to reach more souls for Christ.

PRAYER CORNER

- Good Health
- Bible needs
- Projector need

GOOD NEWS CORNER

- > Blessie got an **A** grade
- > she also rank # 2 for Mathematics district competition

SUCCESSFUL ENGINE OVERWHAULE

Thank you so much brethren for the funds for our vehicle engine repair. Our vehicle now can rock roll, conditioned, much powerful then the previous months. Every dollars

you give during the fund raising is well used according to God's glory. Then we also able to repair our manual water pump through that funds for the vehicle. Thank

you so much.

College student bible study

Morning Bible study

Our campus ministry has expanded very much. Right now I do bible study twice a week two in the morning schedule for morning students and two in the afternoon for afternoon students. Right now I need 500 copies of New testament bibles, this is to be given to all the students we ministered. I hope rose lawn MBC can give me these bibles or if someone there in the states can help me to FISH bible ministry or to Gideon international.

Students render a song

Brethren if you have a used led projector or if you can help me buy a led projector I really need this equipment for my preaching, teaching and for film viewing because if I have this equipment, this will help me more effective to

mass audience.

Through our campus ministry many young people came to our church most of our church Sunday worship. Right now I am praying to make a small nepa house or a tent house for us to have a place for bible study because right now we are most of the time in the shade of the tree and sometimes our bible study will be concealed because of the rain.

My Greek and Hebrew class

My Greek and Hebrew class just started in these 6 pastors because they feel they are not very much well educated in terms of the original language of the bible so they ask me to help them FREE of charge. But after

two weeks of classes some pastors after hearing our secret class, showed interest to learn Greek and Hebrew. And every last Saturday I will also teach them doctrinal class.
