

SAMAL ISLAND MISSION

Missionary: Bro Ruvel Albino and Family

Campus worship service

Bro. Ruvel is leading the praise and worship songs

Welcome once again brethren and as your missionary, thank you for taking your time in reading our newsletter we are so humbled.

The month of June creates a lot of fun , excitement and at the same time physical challenges. For me and for my family ministering is not a tire some work but fun and excitement knowing that we are working together with God. And so we're not alone in the road. Amen!

Part of our ministry here in the Island is our College campus ministry and for that we are so humbled how the Lord uses us very effectively. Last year our highest attendees were 35 but now just during our first college campus worship our num-

ber of attendees was doubled by God. June 19, there 58 students and 4 faculty/staffs attended our worship service in University of Mindanao. And because of these attendees many students and faculties are becoming more positive in planning to attend next time. For me that worship service turns into an evangelistic worship. 15 students came to know

Jesus as there savior in that day. Honestly and personally I was overwhelmed how God moved. Why? because that's my first time experience to be use by God in the highest level of ministry that for me beyond my ability but God does. Working with God now is more sweeter than before.

To God be Glory!

Special points of interest:

- **Special thanks to Promise Land MBC for helping me for the funds intended for the registration of our vehicle and for the extra funds for Blessie's education**
- **We are also thankful for your prayers every day for us**

“because of you”

Brethren, allow me to write what my daughter told me to tell you. She said, “ Ptr. Michael thank you for the bag, my notebooks, my new uniform and shoes thank you so much”.

Thank you so much for helping me for the education of my child my whole family rejoices very much. Furthermore, your

missionary is so thankful for the extra funds you give for the renewal of plate registration of our vehicle and motorcycle. In that funds we purchased a new side mirror, do wheel alignment, insurance, change oil for motorcycle, and wiper. The remaining works to be made in our vehicle is the body and engine general overhauling. Is

still running? Yes. But her condition is not good. But God is good he will not allow anything bad to happen.

“Prayers made great miracles possible”

Just last Saturday afternoon before our prayer meeting.

Your missionary was driving his motorcycle going to penaplata to pick up his wife who just finished teaching children. While driving a ford pickup came from the right side of the road and run continuously and immediately stop in the middle of the road. Running about 60 kph with my motorcycle toward that crossing vehicle within a distance of a basketball court is impossible to stop. I thought about my death and my family but by the grace of God and because of all the prayers my motorcycle's break hold my tires until a half meter distance between my motorcycle and that vehicle. The other motorcycles following me fell down and drivers brought to the nearest hospital but your missionary didn't fell but standing still unharmed and calm. God is so great! Even as I wrote this testimony I still unable to believe that it happened to me. It was God who hold my tires.

VBS Saturday class and closing activity

Another ministry that we do during the summer is our Saturday vbs class and in closing of this ministry. My wife and I made our closing program just this past June 22. our vbs was attended with 150 children in tree different places. In caliclic there were 35 children, Tagbitan-ag 41 and sunrise village and san roque village 85. our graduation program was adjusted to a feeding activity. Instead of giving awards we only give certificates and then we give also

“lugaw” (native soup) that we used for this compose of rice, program was from the chicken, cassava, banana, coconut juice and remains of the vehicles funds that you sent recently. The money
